ANIMAL FEED

B R O C H U R E

Al Dahra Agriculture at a Glance

Al Dahra Group

- Multinational group headquartered in Abu Dhabi
- Specialized in the Food and Feed agribusiness
- Specialized in farming, processing, sourcing, and trading
- Active foreign investments and growth strategy
- Established presence in more than 20 countries
- Commercial activity across more than 40 markets
- Large asset base with a farming land bank of 400k acres
- Established logistics and supply chain capabilities

Animal Feed

- 90,000 acres of land dedicated for forage cultivation
- 13 forage and roughage processing plants worldwide
- Geographically diverse footprint across continents
- Long-term supply contract with the UAE government
- 40+ product categories across different channels
- Global feed commodities sourcing hub based in Italy
- Pioneer in animal feed new products' innovation

Livestock Channel

- Camels
- Sheep
- Goats
- Beef Cattle

Other Channels

- Horses
- Rabbit
- Poultry

Feed Products

- Forage
- Roughage
- Feed Commodities
- Additives / Supplements
- Recipe-Based Products

Dairy Channel

- Dry Cows
- Transitioning Cows
- Lactating Cows
- Milking Cows

Fruit & Vegetables

- Potatoes
- Dates
- Grapes
- Oranges
- Apples
- Olives

Grains

- Rice
- Corn
- Wheat/Flour
- Other Grains

ADDITIVES & SUPPLEMENTS

Feed Business Entities

USA

- top US forage exporter to the Asia and the Middle East
- awarded the US presidential "E" award for exports
- 40 years of leading industry experience
- farms in Arizona and Southern California
- 30K acres of farming land for forage cultivation
- 3 processing plants in Washington State, California, Arizona
- 700K MT annual processing and trading capacity

Spain

- largest forage producer in Spain and across Europe
- 22K acres of farming land for forage cultivation
- 5 processing plants in Ivars, Bellvis, Linyola, Bujaraloz, vilasama
- 650K MT annual trading and sourcing capacity
- cutting-edge dehydration and packing technologies
- well-equipped warehousing and storage facilities
- modern in-house laboratory for forage nutritional testing
- long-term relations with the port of Barcelona

Italy

- leader in forage and feed trading and distribution
- 650K MT annual trading capacity
- long standing relations with preferred suppliers

Feed Business Entities

South Africa

- sourcing platform for alfalfa and other grass varieties
- solid relationships and secure supply contracts with farmers, forage growers and agriculture cooperatives
- (pipeline) pressing plant set up and local logistical services
- 60K MT annual capacity

Egypt

- 22K acres of farming land in East Owaynat and Toshka dedicated to forages and other crops cultivation
- (pipeline) 1 processing plant in Toshka
- 130K MT of annual trading capacity

Romania

- own farming coupled with long-term exclusive supply
- agreements with forage producers and alfalfa growers
- 24K acres of farming land for forage cultivation
- 3 processing plants in Prundu, Visani, Lebada
- 300K MT annual processing capacity
- state-of-the-art processing and packing facilities

Feed Business Entities

Serbia

- own farming capabilities with the infrastructure to work with forage producers and alfalfa growers
- 10K acres of farming land for forage cultivation
- 1 processing plant in Belgrade
- 130K MT annual processing capacity

Australia

- sourcing platform focusing on oaten hay
- dedicated to serving key customer base in Japan, China, Korea
- 1 processing plant
- 40K MT annual processing capacity

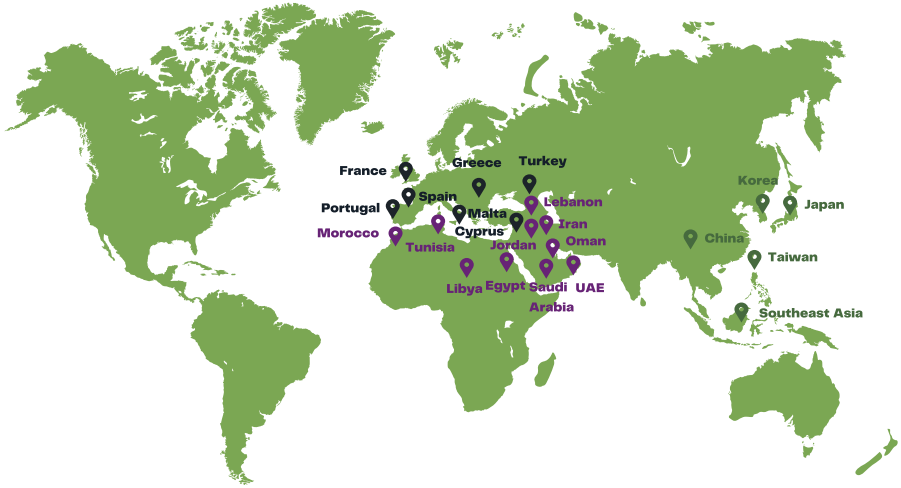

China

- Grain sales
- Animal husbandry and fishery feed sales
- Agricultural and side-line products sales
- Trade brokerage
- Social and economic consulting services and technology import and export

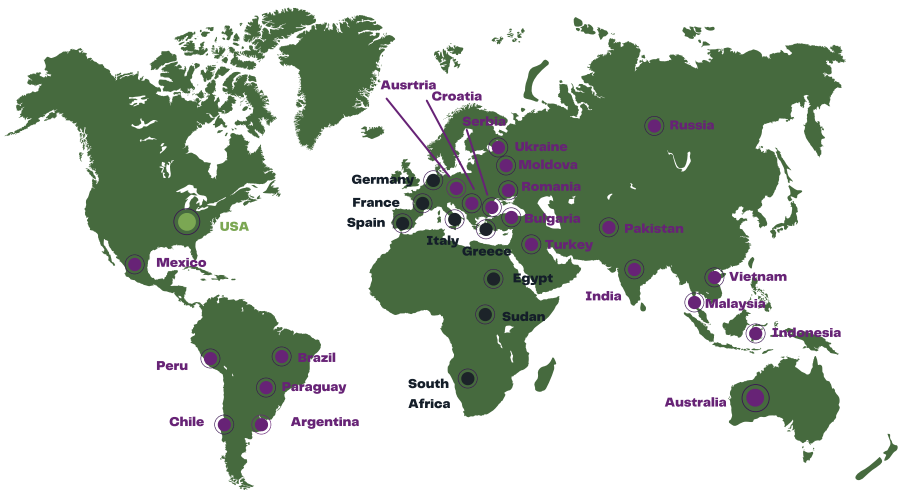

Sourcing and Trading

Trading Activity

- trading in more than 40 markets and regions
- leading position across Asia, the GCC and the Middle East
- long-term relations with dairy customers and feed mills
- global supply chain solutions and expert nutritional advice

Sourcing Activity

- sourcing from more than 40 origins
- established relations and agreements with preferred suppliers for each product category
- year-round and across all seasons products availability as a result of our geographic diversification

Product Quality

Field Quality Control

- diversified sourcing through multiple channels: partner farms, long-term suppliers, spot market
- ongoing inspections, testing and authorization of seed varieties, raw material / fertilizers applied
- field visits during various farming stages: planting, growing, harvesting and cutting
- precise product labeling (stack number, grower, field, cutting information...)
- core sampling and analysis by certified laboratories as per final destination and customer requirements
- general inspection before product movement to the factory

- visual inspection
- moisture testing
- lab / PCR testing

Outbound Plant Quality Control

- product storage in closed and controlled warehouses
- completion of the proprietary "Triple Check System" where every order is subjected to a minimum three QC inspections, testing for conformity to physical and chemical criteria
- physical inspection of containers
- record and picture keeping of all shipments
- internal traceability of each bale / pellet / bag throughout all production stages
- online customer shipment tracking functionality

- visual inspection
- moisture testing
- customer specs matching

Inbound Plant Quality Control

- product segregation and classification by quality range and grade
- product labeling (stack number on individual blocks and processing forms)
- product traceability with hay stacks records entered into a central database
- analytical tests and checks for bales and pellets in in-house laboratories (moisture testing, protein, ADF, NDF, ash, RFV...)
- cross analytical checks, audits and certifications by third parties and professional bodies
- technical specifications sheets for raw material and final products

- visual inspection
- moisture testing
- grade matching

Product Innovation

**collaboration with
academic bodies
for feed research**

**funding of feed
research projects /
trials across various
industries and
channels**

**engineered-to-
order product
development per
customer needs**
